The villas are close to all your necessary day to day amenities such as: Public Transport, Medical Center Education Centers, Supermarkets, Sport Areas, parks and a multitude of services and infrastructure. The villas stand out as a modern, bright, spacious and comfortable home. They are semi detached, spread over two floors sat on a plot of 225m2. This model has achieved great acceptance in recent years, leading to a remodeling of the design that has improved the distribution of some elements of the house. Among the new features are the expansion of spaces that have allowed more useful m2 and a change in the distribution of doors and windows, which give greater prominence to natural light and open spaces.
